## Education

### R.M.K Engineering College

B.E Electronics and Communication Engineering (Honors in VLSI)

2022 – 2026

CGPA: 8.47

### Sri Sankara Vidya Kendra Higher Secondary School

12th: 93% | 10th: 83.4%

2019 – 2022

Chennai, India

## Projects

### CivicDesk – Municipal Engagement & Operations Portal

Java | Spring Boot | Spring Security | Spring Data JPA | JWT | MySQL | Microservices | Angular | RxJS | Angular Material

- Built the **Service Request Management** module using Spring Boot, Spring Security and JWT, exposing REST APIs for request logging, status tracking and document review – one of 10 microservices in the platform, registered via Eureka and routed through an API Gateway.
- Developed the **Notification module** for real-time alerts to citizens and officers using Spring Boot and MySQL, integrated with an Angular UI built with Angular Material and RxJS.

### AI-Driven Agriculture App: A Multilingual Approach with Personalized Recommendation Engine

Flutter | Arduino | AIML | Blynk | Figma | Sensors

- Engineered a multilingual mobile application featuring a personalized recommendation engine tailored for agricultural practices.
- Secured **60k INR funding** from **Unnat Bharat Abhiyan**, demonstrating impactful results in smart farming.
- Led UI/UX design and integrated hardware components, ensuring seamless functionality.

## Experience

### Cognizant

April 2026 – August 2026

Full Stack Java Developer Intern (Angular)

Chennai, India

- Building the **Service Request Management and Notification** modules end-to-end using Spring Boot, Spring Security, Spring Data JPA and MySQL, with JWT-secured REST APIs routed via an API Gateway and Eureka service discovery.
- Developed Angular Material UI screens consuming these REST APIs, and collaborated in an Agile team using Git and Postman for version control and API testing.

## Technical Skills

- **Languages:** Java, TypeScript, SQL, System Verilog
- **Frameworks & Libraries:** Spring Boot, Spring Security, Spring Data JPA, Angular, RxJS, Angular Material
- **Concepts:** Microservices, REST APIs, JWT Authentication, API Gateway, Service Discovery (Eureka)
- **Databases & Tools:** MySQL, Git, Postman, VS Code, Figma; Academic EDA: Quartus Prime, Xilinx, MicroWind, PSpice, LTspice
- **Soft Skills:** Rapport Building, People Management, Problem Solving, Communication
- **TOEFL ITP Level 1:** 553/677 [Speaking - 68 C1 Level]

## Achievements

- **Unfold Hackathon '23:** Secured **2nd place** and won **300 USD** | **SIH '24:** Successfully achieved 6th place in Internal Level of Smart India Hackathon.
- **Technical Symposiums:** 3rd place at **SSN VIVID 8.0** (Project Expo), 1st place at **Sri Venkateshwara College** and 2nd place at **Kurukshetra '24 (Anna University)** in Paper Presentation, 2nd place at **RMKEC Idea Contest '23**.
- **Startup Cafe '24:** Reached the **Pre-Final** stage, demonstrating entrepreneurial skills and business acumen.

## Leadership & Extracurricular Activities

### Namma Flutter (Flutter Chennai Community)

March 2024 – Present

Community Lead

Chennai, India

- Directed **10+ in-person events, hackathons, and workshops**, and grew a **5k+ member Flutter developer community**.

### Flutter Flow Developers Group Chennai

August 2024 – 2026

Co-Lead

Chennai, India

- Led **4+ hands-on workshops** on Flutter Flow adoption, building a platform for developers to network and share low-code development skills.

## Certifications

- **NPTEL:** Completed *Introduction to IoT (Elite)* | *Joy of Computing Using Python (Elite+Silver)* | *Python for Data Science (Elite)* | *System Design Through Verilog*
